

# Delphine Lan

## Product Manager (Co-PM) | Digital Platform Services

Product Manager (Co-PM) with experience in digital platform services across automotive, finance, and ad tech.

Currently focused on automotive-related services that involve real-world operations, public rollout, and cross-team coordination.

Brings a strong product design background to support clear service planning, cross-platform experiences, and practical execution.

## CORE STRENGTHS

- Product & service planning
- Platform and service flow definition
- Roadmap planning and priority alignment
- Cross-functional collaboration (product / engineering / operations)
- Turning real-world constraints into workable product decisions

## EXPERIENCE

- Sep. 2022 - Present | 遠創智慧股份有限公司 FETC International Co., LTD.

### Product Manager (Co-PM) / Senior Product Designer / UI UX design team leader

- Planned and delivered digital platform services from early definition to launch and iteration.
- Worked across product, engineering, business, and operations to align scope and priorities.
- Defined product roadmaps and feature priorities based on user needs and operational constraints.
- Supported cross-platform services across mobile apps, web platforms, kiosks, and in-car systems (CarPlay / Android Auto).

### Key Projects

**Kinmen Roadside Parking Auto-Deduction** – Co-PM on a public parking service; defined end-to-end flows (binding, payment, exceptions) and coordinated with government and operations teams.

**New Car Service** – Planned service structure and core scenarios before development.

**Map Services** – Planned map-based features for parking and nearby car services, including voice search.

- Apr. 2022 - Aug. 2022 | TenMax ad Tech Lab Co., LTD.

### Senior UI/UX Designer

- Designed B2B advertising platforms (DSP / SSP) and collaborated with PMs and engineers.

- Aug. 2019 - Mar. 2022 | Anue 鉅亨金融科技 (鉅亨網)

### Senior Designer

- Worked on financial content platforms and internal systems.

- Jun. 2014 - Jul. 2019 | AMC 空中美語

### Senior Web Designer

- Worked on internal websites, RWD pages, and basic system UI, with front-end implementation in HTML / CSS and coordination with engineers..
